Why is oral language development essential?

- Oral language is a foundational element of both reading comprehension and writing.
- Students have difficulty reading grade-level texts when structures within the text are beyond their receptive language capacities.

### Examples of disparity between oral language capacity and grade-appropriate reading text level

(Lenny and Tweek, Level I/End of Grade 1 Standard)

Oral Language Proficiency

- A prerequisite for flexible, abstract thinking
- The basis for the ability to use knowledge, meaning, and grammar

What is Let’s Talk About It! oral language instruction?

- Easy-to-implement 10–15 minute data-driven, small-group instruction used 2–3 times a week
- Structured, focused instruction using photos (visual stimulus) and detailed lesson plans to support language development
- An approach used to explicitly demonstrate the link between spoken and written language

How does Let’s Talk About It! impact student learning?

Success in improving student reading achievement has been documented! Let’s Talk About It! improves overall reading comprehension by developing the academic language structures necessary for reading and comprehending more difficult texts. More specifically, students

- understand how thinking, talking, reading, and writing are interrelated;
- comprehend more complex spoken and written language;
- incorporate more complex structures in their own language;
- think logically, arrange ideas, solve problems, and draw conclusions;
- expand general and content area background knowledge and vocabulary.

Each kit contains: Let’s Talk About It! Chart (22” x 28”), Text Cards, Oral Language—Reading & Writing Lesson Booklets, Oral Language—Reading & Writing Guidebook

Materials designed to explicitly develop oral language!

Grades K–3

A 5 minute assessment identifies oral language proficiency and possible risk of reading failure.

Small group oral language instruction/intervention

10–15 minutes, 2–3 times a week

Essential for all English language learners and low-language native English speakers
Research shows that students must possess a strong oral language foundation to achieve literacy success!

Let's Talk About It! Oral Language~Reading & Writing reduces the risk of literacy failure by increasing the oral language proficiency of language deficient English language learners and native English speakers. Let's Talk About It! oral language lessons explicitly build and scaffold the language skills students need for both reading comprehension and writing composition.

Materials provide effective and structured oral language instruction.

Let's Talk About It! Chart
48 engaging photos inspire students to explore, discuss, and understand the world around them. The photos can be classified into three categories:

- Science
- Social Studies
- A Day in the Life

Guidebook for Instruction
This professional resource helps teachers fully understand the purposes and procedures for oral language instruction.

Oral Language Assessment
This 5-minute assessment identifies both students' oral language proficiency levels and potential risk of reading failure.

Lesson Booklets
Two lesson booklets accompany each enlarged photo—an oral language~reading lesson and an oral language~writing lesson. Lesson plans explicitly help teachers build and scaffold language skills, structures, and vocabulary.

Text Cards
A double-sided text card accompanies each of the photos. Sentences are printed on each side at two levels of difficulty utilizing different sentence structures. Text cards are also available in Spanish.

Easy to implement!
- A 5-minute oral language screen identifies students' understanding and control of the various complex syntax/structures of (academic/book) language.
- Small group instruction occurs 2–3 times a week.
- Explicit teaching focuses on syntax and structures of complex English, content area schema, and vocabulary.

Let's Talk About It! focuses on:
Explicit Oral Language Instruction
- Builds syntax (academic language)
- Bridges the gap between spoken and written language
- Builds syntax (academic language) and vocabulary through genuine conversation

Easy Sessions

Sessions 1–4
1 Generating a Discussion
   Students and teacher generate, share, clarify, and extend ideas and language.

2 Recording Their Thoughts
   Teacher records students' developed ideas.

3 Returning to Their Thoughts
   Students and teacher read student-generated ideas.

4 Reading the Text Cards
   Students generate predictions, read the text, and interpret/discuss the message.

Sessions 1–4
1 Generating a Discussion
   Students and teacher generate, share, clarify, and extend ideas.

2 Recording Their Thoughts
   Students record thoughts either as a group or individually.

3 Returning to Their Thoughts
   Students revisit and revise the written text, making sure it makes sense, says what they meant, and can be read by others.

4 Publishing
   Students publish the text.
Why is oral language development essential?

- Oral language is a foundational element of both reading comprehension and writing.
